Sprained His Ankle.

Fire Marshal Charles H. Rose of New London, sprained his left ankle Wednesday morning at the fire in Bradley street. Mr. Rose was alighting from the F. L. Allen Hook and Ladder truck when he made a misstep and turned his ankle. Dr. Ross E. Black, who attended him, said that three ligaments of the ankle were badly wrenched and the fire marshal will be confined to his home for two or three weeks.

There is talk of holding a special meeting of Mystic fire district for the purpose of discussing the proposed extension of the fire district limits, especially the extension to the westward to include all of West Mystic avenue and property up to 300 feet west of it.

I was badly ruptured while lifting a trunk several years ago. Doctors said my only hope of cure was an operation. Trusses did me no good. Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to sell, but will give full information about how you may find a complete cure without operation, if you write to me. Eugene M. When men seek to accomplish appropriate by falsehood and trickery, it is evident the object is evil. No decent cause needs falsehood to aid it. cause needs falsehood to aid it.

Numerous attacks on the Connecticut Good Roads association have recently originated in certain newspapers of the state. These articles are part of a campaign by politicians who seek to drive the association out of existence. These politicians seek control of the state highway department. They cannot obtain it without great and undesired publicity as long as the Connecticut Good Roads association exists. We will catalogue and answer some of the falsehoods that have recently been circulated by these certain news-papers and by concerns affiliated with

In the past two years we have sent out some 20,000 secret circulars urging this appropriation. We have had two men canvassing for members from one end of the state to the other, stating we desired this appropriation. Officers of the association have made many public addresses during the past four years urging it. The officers of the state were invited to the last annual meeting of the board of directors of the Connecticut Good Roads association on Jan. 2, 1917, to discuss connected action on the appropriation. We obtained all possible publicity for our aims, objects and views. This is the firm manner in which we have kept our "plot" secret. The only "amazing" thing is that there is anyone in the state who did not know it.

NEW HAVEN ROAD 18 EARNING DIVIDENDS No Reason For Raid on Stock Present Condition is Good.

The New Haven road is earning div-lends, says the New Haven Times-

This is the result of the inventory recently taken by the railroad, and the railroad, and the railroad and the railroad is a minimum figure.

This information was conveyed by Vice President E. G. Buckland to Stockholder Harry Leigh today in a personal interview at the Yellow outliding. Mr. Buckland pointed out

that:

The New Haven road owes on notes due May first \$25,000,090. About \$3,-000,000 is owed to the New England Navigation Co.

This will, perhaps, be repudiated if the New Haven has to give up its marine lines. Something may yet be received from the Boston & Maine—enough to pay all indebtedness, surely. "Is there any reason for the raid on your stock?" Mr. Leigh asked.

"None," replied Mr. Buckland. He added: "The present condition of the road is good."

Mr. Buckland declared it preposterous to think that the road would go into the hands of a receiver. He reterated the need of a two-thirds stock vote to secure a preferred stock issue.

Mr. Leigh wrote Mr. Elliott as fol-

lows:

"I am the owner of quite a number of shares of the New York, New Haven road. I wish to ask you a few questions. As the stock went down today to \$45 per share. I consider it the duty of the president of this road to tell us, the stockholders, the reason for this raid. What is the present condition of the road? Why this raid on the stock? Is there any truth to the rumor that it is the best thing to put it into the hands of a receiver? Wipe out its different guarantees on Wipe out its different guarantees on stock, etc.? Are its present earnings sufficient to meet all its current expenses? Is there any truth in the report that the road is mismanaged to such an extent as to cause great loss in net earnings?

How You Can Quickly

Remove Hairy Growths

(Aids to Beauty)

A well known beauty specialist advises this treatment for the removal of hair from the face. Mix into a paste some powdered delatone and water, apply to hairy surface, and after about two minutes rub off, wash the skin and every trace of the hair has vanished. This method is quick and entirely safe. To avoid disappointment, however, it is well to make certain you get genuine delatone.

Implies that someone has money to use.

Investigation will show that, with all bills paid on Jan. 1, 1917, we would have had a net balance of \$7.6.73 in the treasury. This balance is the "stush fund" with which we are to "accelerate the passage" of the highway appropriation through the legislature.

The Connecticut Good Roads association by any committee. The deeper the investigation, the more welcome. We have absolutely nothing to conceal. If such an investigation is undertaken, and is completed, the selfah personal interests behind this attack upon the Connecticut Good Roads association will be revealed. It will accomplish the very ends we seek to attain and place the truth before the public.

For the benefit of The Warren Bros. Co. and their publicity agents, I will say that no contractor, no paving company, and no road material concern is a contributor to the Connecticut Good Roads association.

for there are the glee, banjo and mandolin clubs, some of the men belonging to two of the clubs. Altogether there are about 50 men in the clubs, selected by merit in competitive trials. Leaders are chosen for the separate clubs and for the combined organizations. Concerts are given during the regular school year and places within easy reach of Boston have frequently the pleasure of hearing the students, while during the mid-years they go far afield to the distant home cities of the prominent members.

The managers and their assistants for the present school year are: Combined clubs—manager, Chester L. Kingsbury, '18, of Keene, N. H.; assistant manager, Laurence M. In previous years the combined musical clubs of the Massachusetts institute of Technology have taken concert trips of a thousand miles or so, but the management of the present year is ambitious and will surpass them all, making Chicago as the farthest west of a tour of more than 2,500 miles. The traveling contingent of the clubs, which includes 40 out of the 50 members, will represent the glee club, the mandolin club and the banjo club in all the essential parts and voices.

Mr. Schultz, '19, who is leader of the mandolin club, is a Montclair young man and will rally his fellow students and their friends for a packed house. Following the concert, there will be a dance in the gymnasium. Montclair is one of the places where Tech has a good foothold and the strong group of alumni there includes the health officer, C. H. Wells.

Returning to Now York in the morning, the musical clubs will furnish the entertainment at the annual dinner of the New York Technology club at Hotel McAlpin. Sunday will be occupied in the long jump from New York to Rochester, another stronghold of Techmen, and Monday evening there will be the Rochester concert, followed by a dance. After a stop for a couple of hours to take in the sights at Niagara Falls the next morning, the young men will go forward to Detroit, where a concert will be given at the Ingleside club, and here also there will be a postlude of the light fantastic.

In Chicago the students will be the guests of the Northwestern Alumni association, M. I. T., at a luncheon at the Engineers' club, and after the concert will return to Akron, due there

This idea of a week during which the entire Jewish population of America should focus their thoughts particularly upon their co-religionists abroad, "a whole people that is sitently suffering, dying of starvation, daily growing weaker and weaker" has a come out of President Wilson's proclamation of just a year ago, in which he set a day apart for the opening of Jewish hearts and purses towards suffering Jews abroad. In this proclamation of the United States senate: "In view of the misery, wretchedness and hardships which these nine millions of Jews are suffering, the senate of the United States respectfully asks him to designate a day on which the citizens of this country may give expression to their sympathy by contributing to the funds now being raised for the relief of the Jews in the war zones."

The Pure Food and Drug Laws aim to protect the public by preventing mis-statements on the labels of preparations but some people continue to accept "extracts" of cod livers thinking they will get the benefits of an emulsion of cod liver oil.

The difference is very great. An "emulsion" contains real cod liver oil, which has had the hearty endorsement of the medical profession for many years, while an "extract" is a product which contains no oil and is highly alcoholic.

Scott's Emulsion guarantees the highest grade of real Norwegian cod liver oil, skilfully blended with glycerine and hypophosphites. Scott's is free from the false stimulation of alcohol and is endorsed by good physicians everywhere.

were created by the last general assembly for which no appropriations were made.

A large increase in appropriations it is pointed out will be necessary for the next two years. The estimate is for \$17,325,961 which is \$4,585,571 in excess of the appropriations for the same purposes for the last two fiscal years. Additional appropriations, for instance, for the Connecticut Haspital for the Insane and the Norwich state hospital, will amount to \$105,352, with an additional appropriation for maintenance approximating \$100,000. New construction at the Connecticut reformatory will call for increased maintenance amounting to \$20,007.

Some of the recommendations are these: Repeal of the act under which annual appropriations are made to certain hospitals. Amendment to the statutes so that the entire cost for board and fare of patients institutions may be charged to those that are able to pay.

LADIES! LOOK YOUNG. DARKEN GRAY HAIR

Use Grandma's Sage Tea and Sulphur recipe and nebody can tell. Brush it through hair.

Gray hair, however handsome, denotes advantages of a Youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.
